# **SAM** Learning | Online study with proven results.

Dear Parents / Carers

## **SAM Learning**

At DMA we are always looking for ways to extend our scholars' learning. Part of our improvement programme involves the use of SAM Learning, a unique online service that offers multiple subjects. Studies show that students achieve 2 GCSE grades on average better than expected with as little as 10 hours or more use of SAM Learning.

Scholars are able to access the service at anytime and anywhere and on any device / operating system. All they need to do is visit the website and enter their unique login details.

Website address: [www.samlearning.com](http://www.samlearning.com)

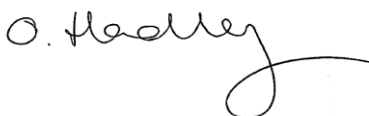

<b>Centre ID:</b>	BD5DM
<b>User ID:</b>	Date of birth followed by two initials: first name then last name. Example: 010800DJ is the User ID for David Jones born 1 <sup>st</sup> Aug 2000.
<b>Password:</b>	Initially same as the User ID, Learners are encouraged to change this to something difficult to guess.

**NB. All scholars have had their passwords reset to make this easy to access while school is closed.**

All scholars have been taught to use the service and you might wish to ask them how it works. The service enables work to be set and marked which means you can easily monitor the progress of your child, how much time they are working for, and how well they are doing.

As part of our provision during closure, your child may be directed to complete some tasks on SAM Learning and it is an excellent source of extension material should your child wish to maximise their progress during these challenging times.

Yours faithfully

Oliver Handley  
**Vice Principal**
