

11 October 2019

Dear Parents / Carers

At Dixons McMillan we will do whatever it takes to ensure our whole community is highly employable and fully ready to lead happy and successful lives. With this in mind, we have been able to purchase study resources for A level Psychology.

We are able to sell a selection of these highly tailored resources to you. The revision guides listed (£14.99-£17.99) cover all of the information needed for A level Psychology, with one book covering each year of the A level course.

The flashcards (£10.00) cover the core topics from A level Psychology and are useful for scholars to memorise key concepts and terminology. The research methods workbook (£4.95) provides scholars with structured activities to consolidate their understanding of research methods. This is vital revision for scholars, as research methods questions make up to 30% of the A level Psychology exams.

The revision resources for Psychology will be purchased shortly by us and given out to scholars as soon as possible, and the charge will be added to parent pay accounts shortly after.

If you would like to purchase any / all of the revision resources then please select from the list below and return the form to the Scholar Support desk by **Thursday 17th October**. The appropriate charge will then be made to your parent pay account.

If you have any questions please do not hesitate to contact me.

Yours faithfully

Miss E Stanway
Head of Psychology and Sociology
