

March 2024

Dear families,

Year 11 Mock Results morning

In order to give a more real experience to our Year 11 students we will be running a Mock Results morning on **Thursday 14th March**. This is an alternative to the evening event which was originally planned.

We are encouraging families to come in with students, where they will be able to collect results in the same way as they will in August. There will be an opportunity to celebrate results together, with students later being given feedback as a year group highlighting successes and next steps. Students will also get a practical idea of what it will feel like to open those summer results.

Students will be starting a little later than usual, with 'doors open' from **8:30am** at which point Advisors will be ready to meet students with their families and to hand out results.

Results will be available until **9:20am**, with all students expected to be in attendance by **9:10am** at the very latest. At 9:20am families will then need to leave, in order for students to start their Academy day.

We hope that you will be able to support this event, and we look forward to welcoming you to the Academy next Thursday.

Please note that this replaces the previously planned evening event.

Yours faithfully

Paul Murray
Vice Principal
