

March 2025

Dear Year 8 Students and Families,

We are pleased to inform you that on **Tuesday, 18th March**, Year 8 will be taking part in their second Enrichment Day. This is a fantastic opportunity for students to extend their learning beyond the classroom and engage with new experiences that will support their future studies.

As part of the day, students will visit the **National Science and Media Museum**, where they will explore various exhibitions, with a particular focus on the work of David Hockney. This will allow them to gain insight into his artistic techniques and themes.

In the afternoon, students will take part in a sculpture trail, which will lead them through a fascinating route showcasing outstanding sculptures located in Bradford's modern and historic city quarters. This experience will allow students to explore the city's cultural heritage while deepening their appreciation of public art.

There is no cost for this visit, and attendance is essential to ensure students do not miss out on this valuable learning opportunity.

Key Information:

- **Uniform:** Students must wear full school uniform and bring a coat to prepare for any weather changes.
- **Equipment:** Students should bring their usual morning meeting equipment.
- **Lunch** will be provided if not fasting.
- **Travel:** The visit includes a short walk from school to Bradford city centre. Students should wear their usual school footwear.

We look forward to an exciting and enriching day for all Year 8 students. If you have any questions, please do not hesitate to get in touch NLaws@dixonsma.com.

Yours faithfully,

Miss N Laws
Head of Art and Design Technology
